今日焦點 評審

Today's FOCUS JUDGING Interview

今天是一個特別的日子，大家辛苦研究的結果將在此日分享給評審。雖然面對一群學術泰斗總是令人緊張，而且有時候教授提出的艱深問題會讓你不知所措，但是這次解說的經驗將讓你獲益良多，從和教授的互動中，你也許會獲得更大的啟發呢！所以，就在今天展現你對研究的熱忱與自信吧！若感到緊張的話，可以試著和旁邊的選手聊天，緩和緊張的情緒喔！

今日之星 Today's Star

來自加拿大的 Andrew Schulz 這次參展作品是醫藥學科的。在參加科教館所安排的午餐交流會後，他覺得可以認識許多不同國家的學生以及交流彼此的作品是一件十分棒、十分有意義的事情。也覺得在交流午餐會所吃的食物跟他家鄉的十分相似，感覺很親切呢！也期待之後能夠多吃一點台灣當地食物，有關闖關活動，他更是期待能與組員們一同解開任務！

Today is a special day. The competitors will present their own research to the judges today. Although facing a group of specialists may make you nervous, this experience will bring you many benefits. Besides, you may obtain more inspiration from the interaction between professors! Therefore, show your passion and confidence today! If you are nervous, you can calm down by chatting with other competitors.

Andrew Schulz is a student from Canada who came to TISF with his project in Medicine & Health. After participating in the mixer luncheon, he found it was a really great and meaningful experience to meet students from other countries. He and his friends exchanged ideas about each other's projects. He also said that the meal he had during the luncheon was very similar to the food back in his hometown, so he was quite used to it. He hopes that he can eat more Taiwanese local food in the upcoming week. For the Hunt Game NTSEC prepared, He was very excited to solve the problem with teammates.

今日小提醒

Reminder of Today

9:00-12:00; 13:00-16:00

第一階段評審(科教館 9F)

Judging Interviews (9F)

10:00-16:00

國內外教師參訪(集合地點:科教館 B1 會議室 B)

Science Educators Workshop (B1 Meeting Room B)

參展作品安全審查
Scientific Review
Committee (SRC)

昨日，工作人員們仔細地確認所有與作品相關的物品是否符合競賽以及安全規定，將審查結果公布後，已要求未通過安審的參賽組別修改完畢並完成複查，期許大家都能在今日評審能有傑出的表現喔！

Yesterday, staff members examined all the projects to make sure that they follow the regulations of the fair. The results were announced and those who do not pass have already corrected the mistakes and pass the 2nd SRC. Hope that everyone can have a fantastic Judging Interview today!

勇於夢想，啟動未來 Dream Big, Inspire the Future.

花絮回顧 Retrospects

開幕典禮 Opening Ceremony

今天揭開了臺灣國際科學展覽會的序幕，一開始 LUXY BOYZ 帶來的精采舞蹈節目。接著，教育部林次長在致詞中表示，科學研究為現今教育所重視之項目，並引用交通大學周苡嘉教授的例子來激勵 21 世紀的青少年們。朱楠賢館長同時表示，這場科學展覽會是給予年輕科學家們一個互相交流、學習的平台，並希望大家能尋得科學的靈魂，並完成自己的夢想。

Taiwan International Science Fair finally set off with the opening ceremony. LUXY BOYZ performed a spectacular dance at the beginning. Then, Ms. Lin, the deputy minister of the ministry of education, indicated that science researches have been an important part in education these years. She also cited Pr. Chou of National Chiao Tung University's story to encourage the teenagers of 21st century. Dr. Chu Nan-Shyan, the director-general of NTSEC, considered TISF as a platform for the young scientists to share their thoughts. He hoped that everyone can learn the attitude and spirit we should own in the field of science and fulfill our own dreams.

Dr. Nicky Lu is the founder, chairman and CEO of Etron technology, Inc. He is also the person who has the hero dream. "Contributing to the human being with our own talents" is his motto. In his opinion, people should learn to solve the difficulties with their own creativities and passion. In addition, he takes himself as the example to tell us that setting goals, seizing the opportunities, and finding the model can bring us success. In the speech, he really spurs many youngsters who also have the hero dreams.

大師會談 Meet the Scientists

本次的大師對談，我們很榮幸地邀請到臺大電機系葉丙成副教授以及鈺創科技公司的盧超群董事長來分享他們成長過程中的學習心得與寶貴經驗。

葉教授在演講中提到自己對教書的看法與對學生們的提醒。他是臺灣首位創立 MOOC 的教授，並將課程放上網頁供各地學生們點閱，展現其對教學的熱忱。最後，他也以自身的故事給予同學們下列建議：找到自己的天賦；記得專業領域之外還有值得探索之處；準備好面對一個充滿變化與未定的世界；教導自己、訓練自己；開心地做任何事情及勇於夢想。

盧超群博士是鈺創科技公司的創辦人、同時是全球半導體聯盟主席。此外，他也是個具有英雄夢的人，「利用自身的才華貢獻世人」是他一直奉為圭臬的座右銘。他認為在這瞬息萬變的社會裡，人類必須利用自身的創意、熱忱來解決身邊的困難。他也以自身經驗為例，告訴我們設立目標、把握機會，並為自己找個模範將為我們帶來輝煌的勝利。在此次大師會談中，他的演講啟發了無數懷有英雄夢的熱血青年。

In the "Meet the Scientists" activity this time, it's our honor to invite Pr. Ping-Cheng Yeh of Electronic Engineering Department of NTU and Dr. Lu of Etron Technology, inc to share their experiences and thoughts.

Pr. Yeh mentioned his idea in teaching and words for the students. He is the first man to set up MOOC in Taiwan, and he puts his courses online for students anywhere to take a look, showing his passion in teaching. At last, he utilized his own story and gave the students following advices:

Find your talents; remember there are things worth exploring other than your profession; get ready for a world full of changes and uncertainty; teach yourself, train yourself; find pleasure in whatever you do and do not afraid to dream big.
